

QUALITY IS IN OUR DNA

www.pankajwires.com

WE STARTED WITH A SIMPLE IDEA.

COMPANY OVERVIEW

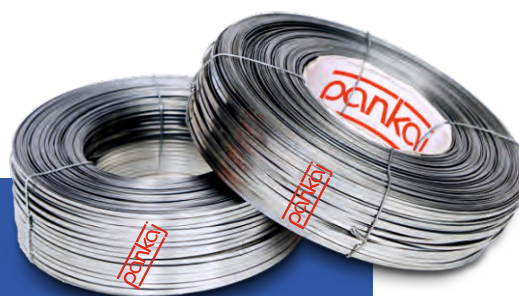

Established 38 years ago, Pankaj Stitching Wires is now one of the leading stitching wire manufacturers in India. Mr. Dhirajlal Bhavsar and Mr. Pankajbhai Dhirajlal Bhavsar are the founding members of this giant organization. With the advent of industrial boom in India, Pankaj Stitching Wires achieved phenomenal growth following tremendous surge in demand of stitching wires in 1979.

Since then, there is no looking back for Pankaj Stitching Wires. With the growth of several industries in India, company has also growing into a bigger name as stitching wire exporter on the world map. Moreover, the company emerged as a reliable name for the complete range of round stitching wire, round stitching wire on spool, flat stitching wires, stainless steel stitching wires and regular stitching wire.

Best quality has become the face of Pankaj Stitching Wires as the brand uses high quality zinc, copper and brass coatings in the manufacturing of wires required for different industries.

Currently, Pankaj Stitching Wires enjoys the status of leading brand in the realm of printing and packaging industries of India – all credit goes to our policy to deliver superior quality and unparalleled service. We serve both industries with high quality stitching wires in a variety of sizes and coating. Due to our extraordinary efforts and in-depth research, our product development has achieved new heights and we are capable of meeting changing demands of the industry.

Continual Improvement

- ✓ Implement and periodically review our Management System in order to satisfy customer and continual improvement.

Salient Features

- ✓ Stitching wire made from the best mild galvanized iron and processed to suit every stitching.
- ✓ The coils/spools are in straight length without joints & gauge variations which avoids wastage.
- ✓ The wire is rust resistant with no deviation and so weather does not affect its quality.
- ✓ The coils are shrink packed and wrapped in a high quality kraft paper, to withstand adverse weather conditions.
- ✓ Good corrosion resistance due to eco-friendly coating.
- ✓ High penetrating power due to restricted production tolerances.
- ✓ At every stage processing, it is supervised by competent technical personnel to ensure utility.

G. I. STITCHING WIRE

Pankaj Stitching Wires, one of the trusted round stitching wire manufacturers, has set itself apart from its competitors by providing the best quality round stitching wire to our clients spread across the length and breadth of the world. Since rust-free stitching wires are in great demand, we have acquired expertise in manufacturing the same over the years. By providing the best quality round stitching wires, we have achieved the status of one of the leading round stitching wire manufacturers in India.

Our manufacturing units are equipped with high quality machineries to produce 100% rust-free, eco-friendly and unbreakable stitching wires. Superior quality stitching wires ensure long life of stitching machines and their parts. The stitching wires are primarily employed for book binding wire stitching.

Pankaj Stitching Wires, a reliable stitching wire supplier, manufactures perfect stitching wires that can be used in regular and loop stitching applications. We offer these stitching wires in bright finish with zero tolerance for specialty work.

Stitching Wire Technical Specification

Size (in ISWG)	Size in MM	Meters	Feet	Appearance	Packing
18	1.22	110	355	Round, Clean, Shining	As per customers specification
19	1.05	149	489		
20	0.91	195	640		
21	0.81	250	815		
22	0.71	320	1055		
23	0.61	430	1410		
24	0.56	520	1700		
26	0.46	760	2495		

FLAT WIRE

Whether it's flat stitching wire, box stitching wire, or flat galvanized stitching wire – Pankaj Stitching Wires has every solution for your requirement. Our manufacturing team has developed knack for manufacturing flat stitching wires to export to every nook and corner of the world.

Like all other wires, our flat galvanized stitching wires have anti-corrosive characteristic as these wires are made in eco-friendly condition and have surface coating for all kinds of box stapling. Our flat stitching wires are available in two types: electro galvanized wire and rust-resistance galvanized wires. These stitching wires boast consistent tensile strength. The measurements of our flat stitching wires range from 2.03mm to 2.5mm.

Pankaj Stitching Wires is one of the eminent flat stitching wire suppliers exporting stitching wires for corrugated boxes. We offer supreme quality of products to our clients. Before dispatching flat stitching wires to our clients, we conduct rigorous quality tests to check raw materials and finished products.

Stitching Wire Technical Specification

SWG Wire Gauge	Size in Inches	Size in MM	metres / KG
12 x 22	.103 x .028	2.50 x 0.70	80
112 x 23	.103 x .023	2.50 x 0.60	90
12 x 24	.103 x 0.22	2.50 x 0.55	100
12 x 25	.103 x .020	2.50 x 0.50	110
12 x 26	.103 x .017	2.50 x 0.43	115
13 x 25	.092 x .020	2.35 x 0.50	120
14 x 25	.080 x .020	2.03 x 0.50	195

Spool Technical Specification

	Capacity (kgs)	Flange (mm)	Barell (mm)	Traverse (mm)	Over All (mm)	Bore (mm)
	2	138	53	44	50	18.5
	3	138	53	48	57	18.5
